overview

Money is the medium of exchange for most goods and services. Different coins and paper money have different values.

Children need the ability to recognize the names and values of different coins and bills used in exchange for goods and services. This lesson helps children identify the names of coins and grasp their relative values in terms of purchasing power. We present games and activities that will help children acquire this knowledge.

goals

Provide an understanding and awareness of the numerical value of coins and paper currency.

lesson objectives

- Understand the exchange value of coins.
- Learn the names of coins.

student activities

4-1 Coin Flash Cards

Related Worksheets: Coin Flash Cards

Children learn to identify the names of each coin with flash cards.

4-2 Penny and Nickel Purchases

- Help children learn the value of coins with a purchase situation.
- Discuss that five pennies buys the same amount as one nickel.
- 4-3 Treasure Hunt
 - Have children find and identify coins.
- **4-4** Reading About Money
 - Use story and reading time to learn coin identification.
 - Talk with children about the value of different coins.

4-5 Counting

- Use real coins to give children experience in sorting and counting different coins.
- **4-6** Lesson Four Quiz
 - Coloring Activity
 - Young Reader Answer Key

coin identification flash cards	student activity
 Children can learn coin recognition with this activity. It encourages visual recognition of the coins. Place visual images of a penny, nickel, dime, quarter, half dollar, and gold dollar on 3 x 5-inch index cards Use heavy card stock, if possible. Include pictures of both sides of the coins. Hold the flash cards up and see which child can name each coin first. (This activity can also be done with one child at a time to help learn the names of the coins.) 	
coin values Young children need help understanding the actual value of	discussion
each coin.Begin with pennies and nickels.	
 Have a supply of animal crackers, short pretzel sticks, or similar small items. Give each child five pennies and one nickel. Use play money, if you prefer. Tell the students that each animal cracker costs one cent. Sell them five animal crackers in exchange for five pennies. Next, give them another five crackers for the nickel. Discuss with the students that five pennies buys the same amount as one nickel. Repeat this game again, and play it often. Expand it to include a dime and quarter as children grasp the concept of a nickel. 	

what is money? teaching notes

 naming coins This activity helps children learn to identify the names of coins. Place real coins in a large plastic container partially filled with rice or sand. Mix the coins and rice (or sand) to hide the coins. Ask the children to find the coins. Ask the children to tell you the names of the coins they find. 	discussion
